Climate effects of a forestry company – including biogenic carbon fluxes and substitution effects

# Our sustainability performance

StoraEnso

## Climate change

## Circularity

## Biodiversity

### Targets

**-50%**

reduction in absolute emissions by 2030 (Scope 1,2,3)

**100%**

Recyclable products by 2030

**Net positive**

Impact on biodiversity by 2050

### Status

scope 1+2

**-44%**

(Q1 2024 compared to the base year 2019)

scope 3

**-34%**

(2023 compared to the base year 2019)

Share of technically recyclable products

**94%**

(2023)

**Target to reach 100% compliance by indicator\***

Committed to reaching net-zero CO<sub>2</sub> emissions by 2040

\*The indicators are: high stumps, deadwood, soil and water, habitats, buffer zones and tree retention

# Stora Enso ~2030 ambition\*

StoraEnso

**+30% sales**

vs 2021  
(excl. inflation)

**15% operational  
EBIT margin**  
over a cycle

**Packaging >60%**  
of sales

**Wood Products**

**>40%**  
of sales from Building  
solutions

**+75%**  
operational EBITDA  
over a cycle\*\*

**Earnings  
cyclicality  
reduced by half\*\***

No paper exposure

Significantly reduced  
market pulp exposure

**New revenue  
streams**

**1 BEUR sales**  
from Biomaterials  
innovation

**5-10 TWh**  
of wind power on  
own forest land

\*The above 2030 ambition should not be considered as targets or guidance for 2030

\*\*Compared to 2016-2021. Measured as standard deviation over a cycle

StoraEnso

# Divisions

# Division overview (sales, adj. EBIT and adj. EBIT margin)

StoraEnso

## Sales

## Adjusted EBIT and Adjusted EBIT Margin

StoraEnso

# Packaging

Packaging Materials  
Packaging Solutions

StoraEnso

## Packaging Materials division in brief

- Aims to lead the development of circular packaging, providing premium packaging materials based on virgin and recycled fiber
- Helping customers to replace fossil-based materials with low-carbon, renewable and recyclable alternatives for their food and drink, pharmaceutical or transport packaging
- World-class cost-competitive integrated production sites close to raw material sources
- Main products: consumer board, containerboard and barrier coatings
- The customers are converters, brand owners and retailers

StoraEnso

## Packaging Solutions in brief

- Develops and sells premium fiber-based packaging products and services
- Innovation collaboration throughout the whole value chain for developing renewable packaging materials
- High-end, eco-friendly packaging products which are used by leading brands across multiple market sectors, including the retail, e-commerce and industrial sectors
- The portfolio includes converting corrugated board and cartonboard
- Operations in Northern, Central and Western Europe as well as in China

# We have a broad portfolio of products

StoraEnso

## Sales mix Q1 2024

- Packaging Solutions
- Packaging Materials

## Consumer Board

Liquid packaging board

Food Service Board

Coated Unbleached Kraft

Solid Bleached Sulphate

Folding Boxboard

## Containerboard

Kraftliner

Testliner

Semi chemical fluting

Corrugated packaging and new businesses

## Packaging solutions

# Leading market positions in Europe and global reach

StoraEnso

- **Top 10 largest** global supplier of packaging board
- **Premium products and services** for demanding end uses
- **Kraftliner and SC fluting** global premium niche
- **Corrugated packaging** market fragmented
- **Capacity increases** through organic and acquisitive growth

## Consumer Board

Stora Enso's market position

**LPB** #1 Globally

**FSB** #1 in Europe

**FBB** #3 in Europe

**CUK** #1 in Europe

**SBS** #2 in Europe

## Containerboard

**Kraftliner** #3 in Europe

**SC fluting** #3 in Europe

**Recycled containerboard\***  
#8 in Europe

## Packaging solutions

**Corrugated boxes** top three in Nordics

**Corrugated boxes** top two in Benelux

# Integration benefits in core regions

StoraEnso

## Nordics and Baltics

- Premium carton and liquid packaging board
- Virgin fiber containerboard and converting
- Megasites for economies of scale and integration benefits
- Smaller production sites with niche product concepts
- Optimising product mix

## Eastern and Western Europe

- Recycled containerboard and converting in Poland
- Beverage carton recycling in Poland
- Potential to use more containerboard internally

\*Ongoing divestment process for Beihai site and plantations in China

\*\*One of the two paper machines (250kt) in Anjalankoski was closed in Q4 2023

# Construction of a new consumer board line at the Oulu site proceeding according to plan

- Investing ~€1bn in 2022 – 2025 to convert the second idle paper machine at our Oulu site in Finland
- Production estimated to start early 2025
- Starting consumer board line for folding box board and coated unbleached kraft to a total capacity of 750,000 tonnes/y
- Expected annual sales ~€800m
- Reducing earnings volatility by lowering the Group's market pulp exposure by ~250,000 tonnes/y
- Target end-use segments: food and drink, frozen and chilled, mainly in Europe and North America

StoraEnso

# Planning and implementation of growth projects

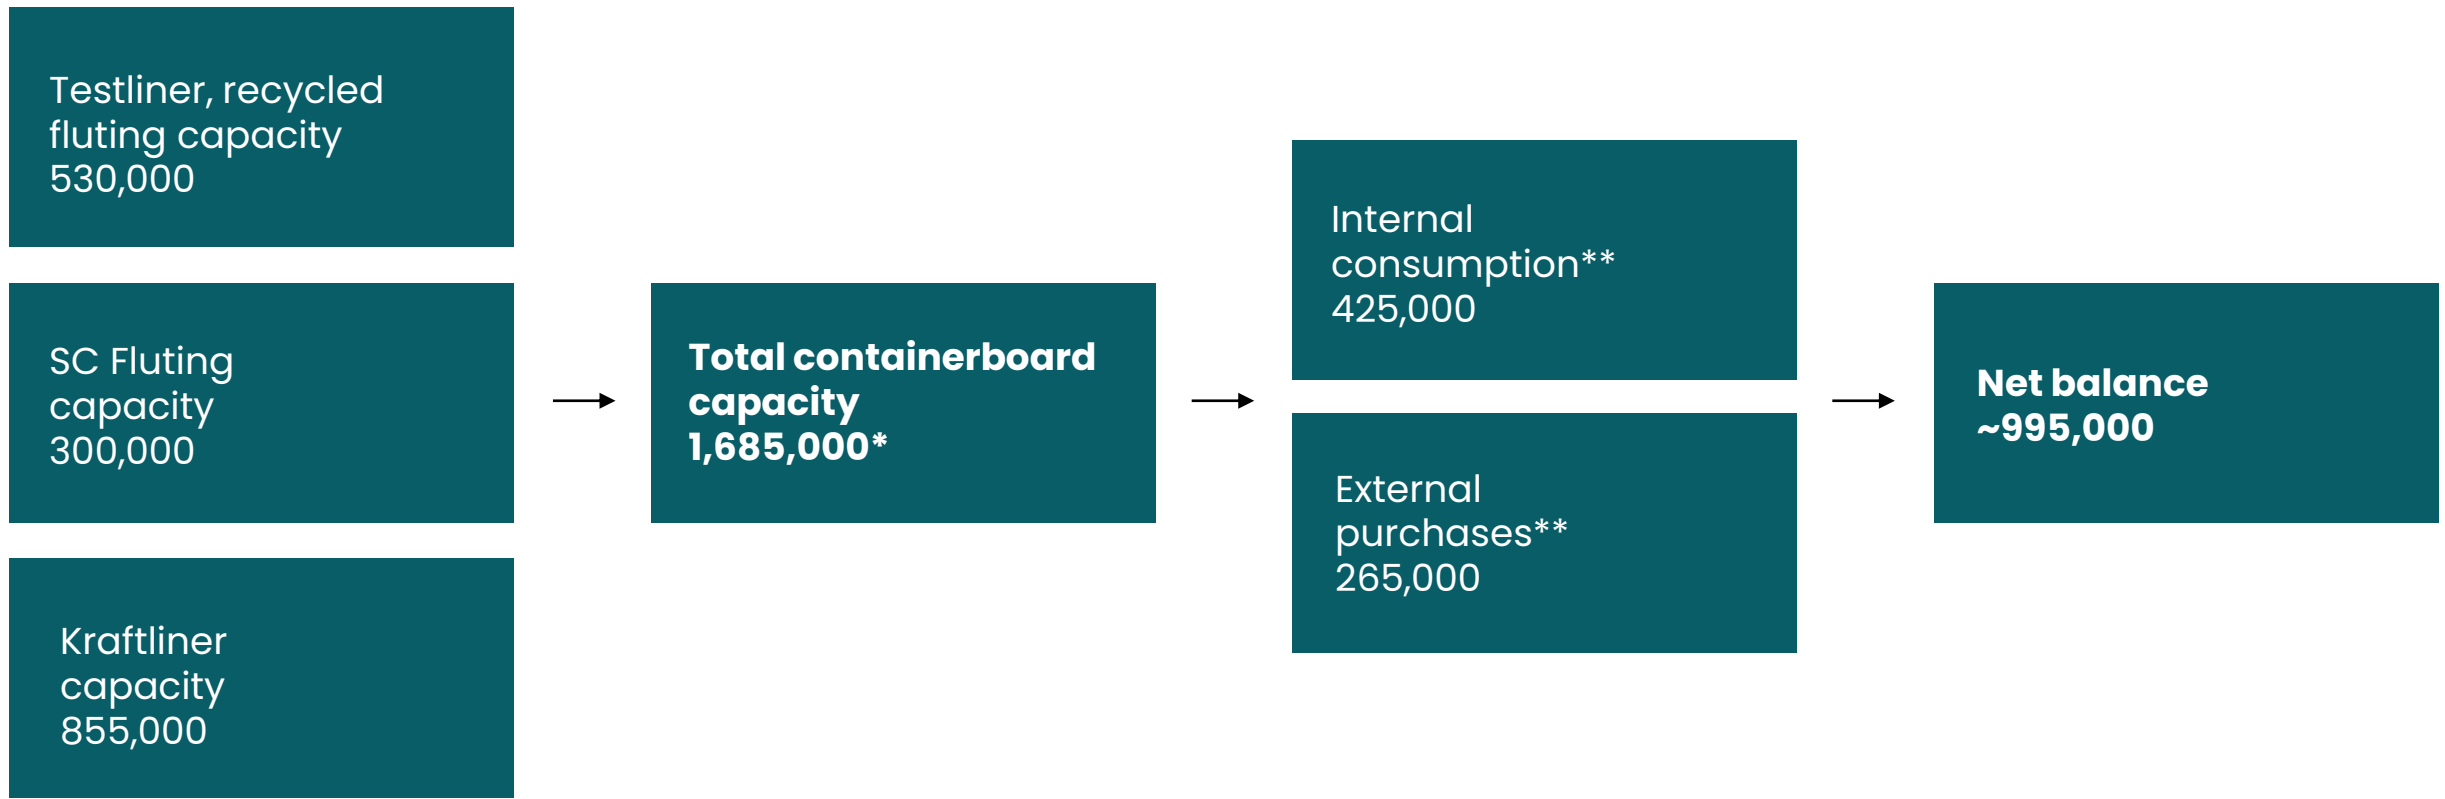

StoraEnso

# We are committed to reduce our long position in containerboard

StoraEnso

\*Excluding Ostroleka sack and wrapping paper capacity of 130,000 tonnes

\*\*Based on rolling 12 months estimate

# Packaging ~2030 ambition

StoraEnso

**>60% sales  
increase**

vs 2021

**EBIT >2x**

vs 2021

**Highest industry  
margins**

**Fully integrated  
board capacity  
with internal pulp**

**Leader in  
sustainable  
packaging design  
and innovation**

**50% carbon  
footprint  
reduction**

**100% recyclable  
products  
(technically)**

**Full adoption of  
Circular Design  
Guidelines (2025)**

\*The above 2030 ambition should not be considered as targets or guidance for 2030

\*\*Compared to 2016-2021. Measured as standard deviation over a cycle

StoraEnso

# Biomaterials

# Biomaterials division in brief

StoraEnso

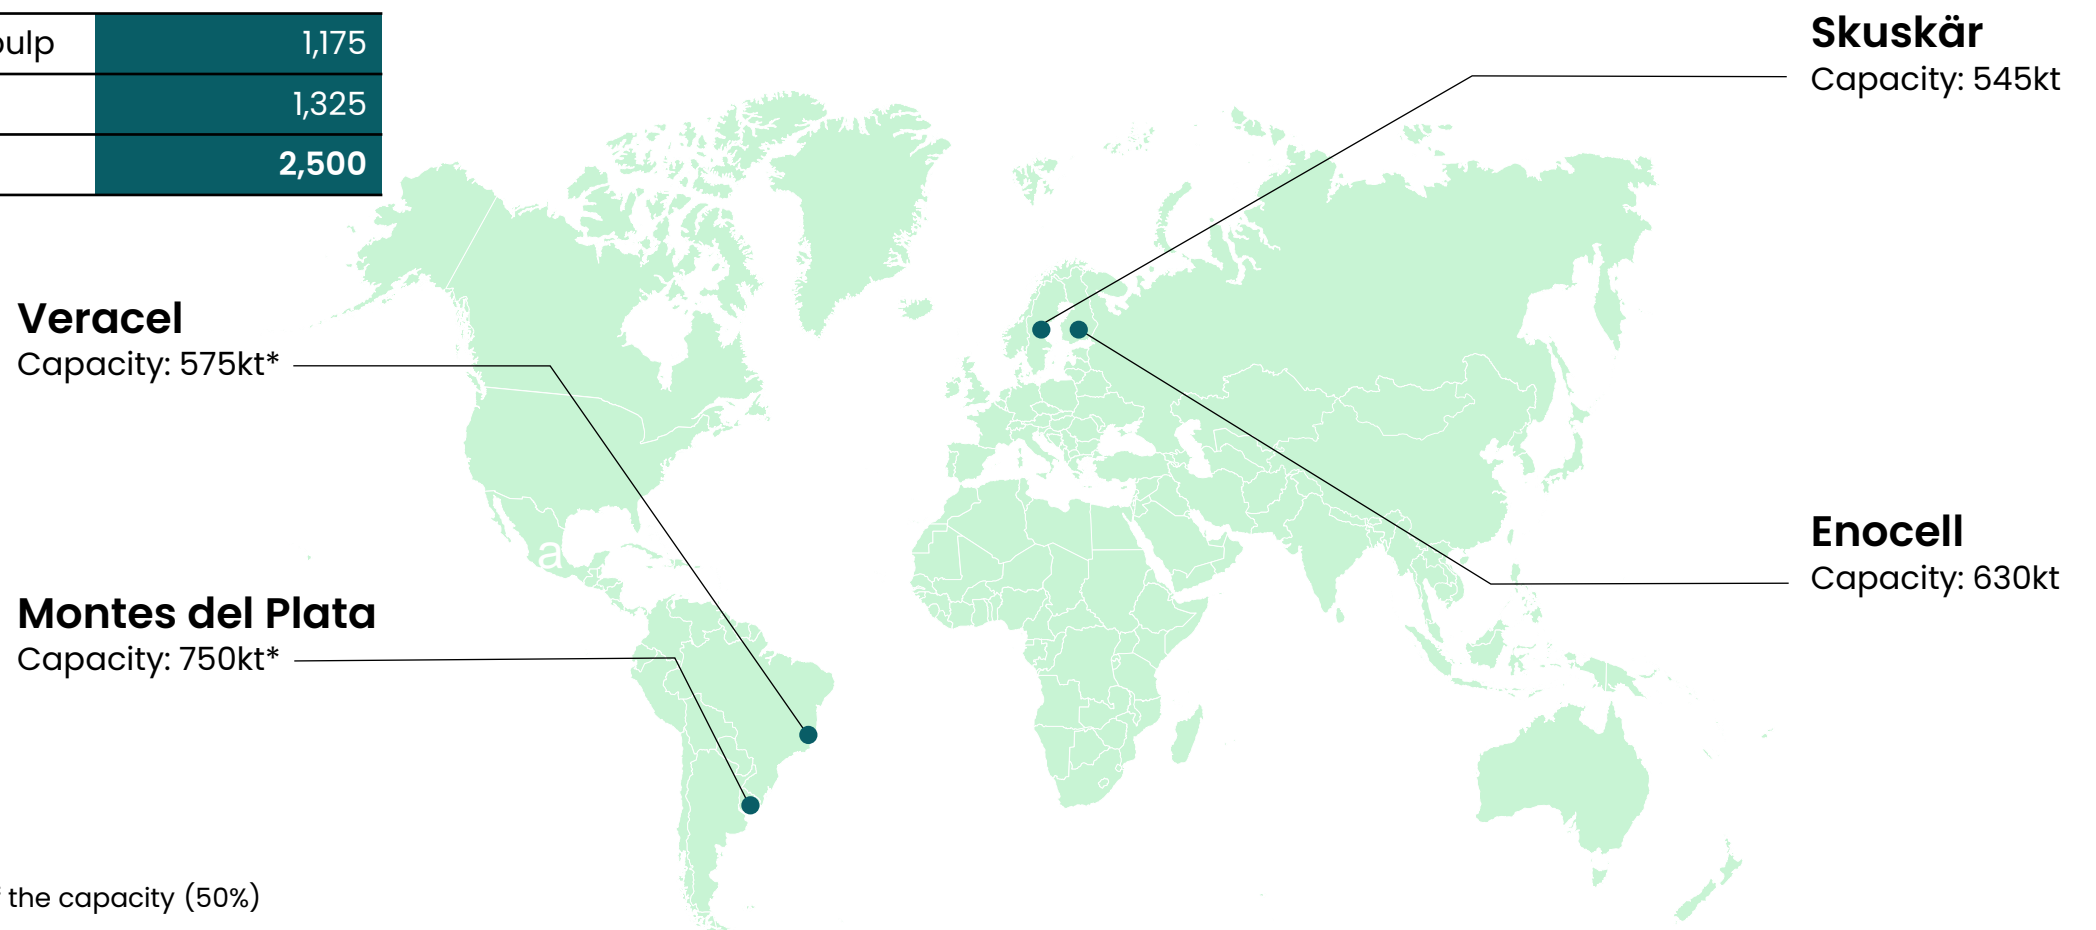

- Biomaterials division meets the growing demand for bio-based solutions to replace fossil-based and hazardous materials
- We use all fractions of biomass to develop new solutions
- Our pulp offering encompasses a wide variety of grades to meet the demands of board, paper, specialty paper, tissue and hygiene product producers, as well as materials from process side streams, such as tall oil and turpentine from biomass
- Our work to replace fossil-based materials includes novel applications such as Lignode and bio-based binders

# Biomaterials worldwide

StoraEnso

Grade	Capacity 1,000 t
Softwood and fluff pulp	1,175
Hardwood pulp	1,325
<b>Total Capacity</b>	<b>2,500</b>

\*Stora Enso's share of the capacity (50%)

# Our products and sales mix form the foundation for biomaterial innovation

StoraEnso

### Sales mix Q1 2024

### Pulp sales by end use Q1 2024

### Pulp Market size €45 billion, CAGR +2%

Bleached kraft pulp

Fluff pulp

Unbleached kraft pulp

Bio-chemicals

### Innovative biomaterials

Lignin

Bio-binders

# Significant growth opportunity in biomaterials innovation

StoraEnso

Market size	€10 billion	€20 billion
Long-term EBITDA margin potential	50%	40%
CAGR	 <b>Anode material</b> +25-30% CAGR	 <b>Bio-binders</b> +3-4% CAGR

# Reducing carbon footprint with bio-based binders

High bonding strength and water resistance

Replacing fossil-based chemicals

**Market €20 billion**

Current share <1%

# Lignode replaces non-renewable graphite in batteries

**Anode material  
Lignode®**

**Anode material  
on foil roll**

**Rolled into  
Lithium-ion cells**

**Cells are stacked  
into battery pack**

- Electric vehicles
- Stationary energy storage
- Other electric products

# Higher performance and faster charging compared to pure graphite

Properties	100% Lignode	Lignode/graphite mixtures
Fast charging/ discharging		
Low temperature performance		
Cycling stability		
Energy density		
Sustainability		

# Partnering across the battery value-chain to make electrification more sustainable

## Battery value-chain with Stora Enso announced collaborations

**Battery  
Materials**

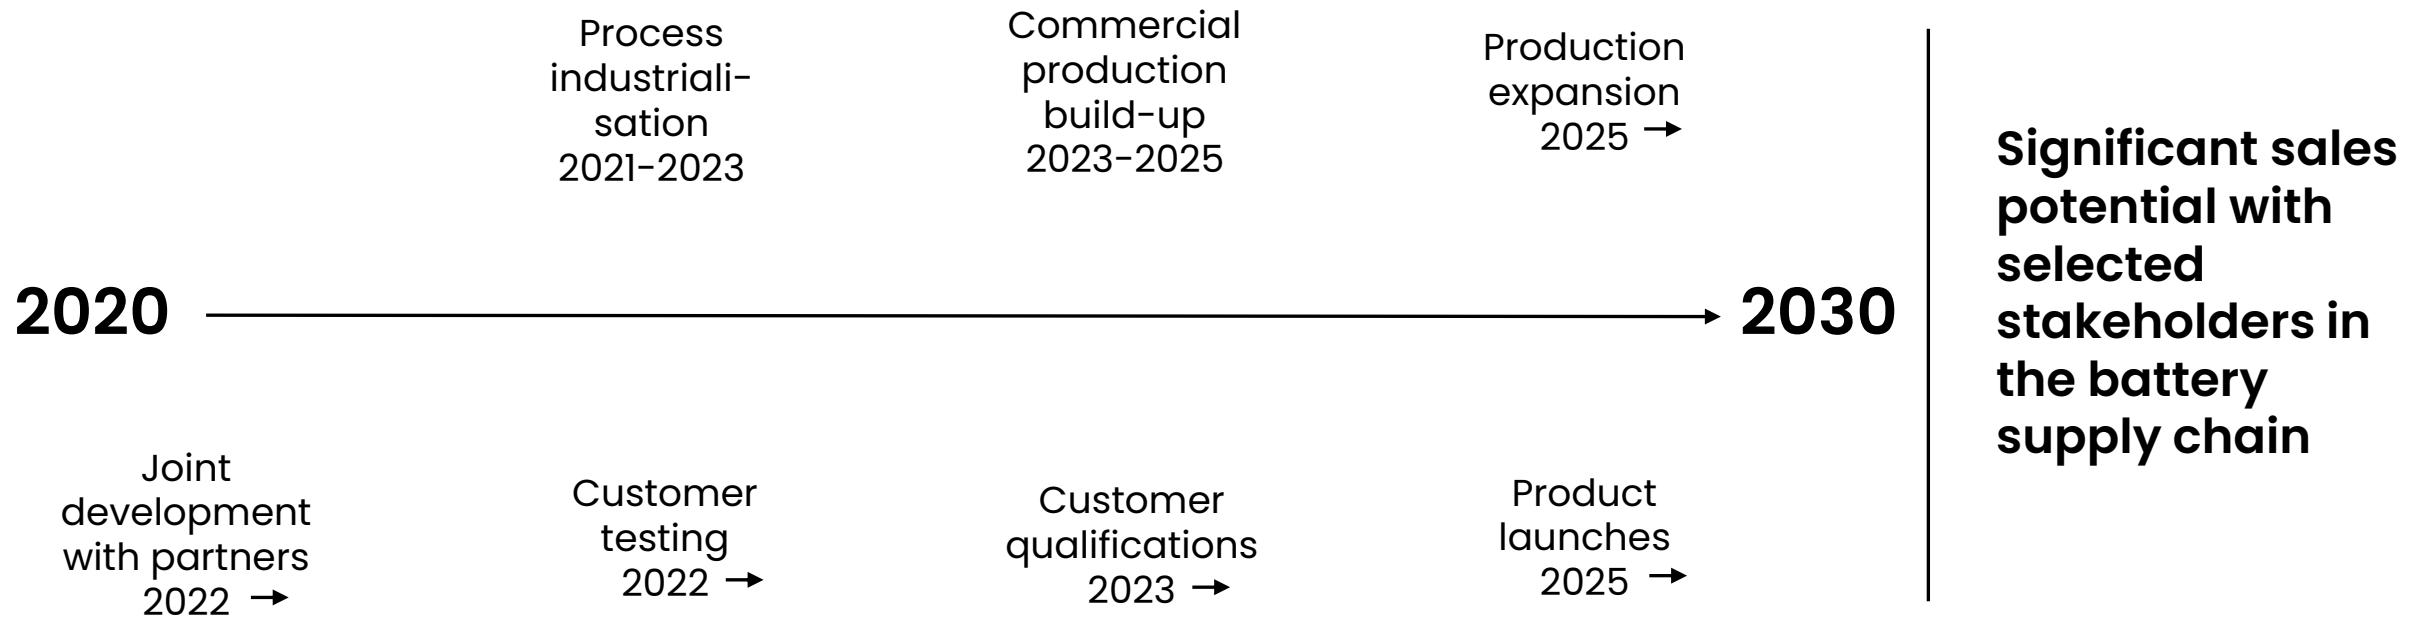

**Battery  
Producers**

**E-Mobility**

# We are accelerating the development and scale-up of Lignode with customers and partners

# Biomaterials ~2030 ambition

StoraEnso

**€1bn sales in  
innovative  
biomaterials**

**Reduced market  
pulp position**

**Full scale-up  
of Lignode**

**Leadership in  
European fluff**

**50% carbon footprint  
reduction**

**Maintaining strong  
competitiveness**

StoraEnso

# Wood Products

# Wood Products division in brief

StoraEnso

- Largest sawn wood producer in Europe and a leading provider of sustainable wood-based solutions for the construction industry globally
- The growing Building Solutions business offers building concepts to support low-carbon construction and eco-friendly designs
- Developing digital tools to simplify the design and construction of building projects with wood
- High demands with regard to safety, quality, design and sustainability
- The customers are mainly merchants and retailers, industrial integrators and construction companies

# Our two strategic pillars enable financial stability and resilience

StoraEnso

## Sales mix Q1 2024

■ Traditional wood products  
■ Building Solutions

## Traditional wood products

**Classic sawn**

**Classic planed**

**Wooden industrial window and door components**

**Pellets**

3-4% annual market growth rate long-term

**Market size:**  
>€100 billion

## Building Solutions

**Cross-laminated timber (CLT)**

**Laminated Veneer Lumber (LVL)**

**Construction beams**

**Services and tools**

<10% annual market growth rate long-term

**Market size:**  
>€1 billion for wooden multi-storey buildings

# Climate change can be mitigated with wood construction

CO<sub>2</sub> savings for every m<sup>3</sup> built with wood

**-1 tonne CO<sub>2</sub>**

vs. concrete

**-2.5 tonnes CO<sub>2</sub>**

vs. steel

**We can significantly cut emissions in the construction sector by using renewable materials**

StoraEnso

# Our market position and sustainability megatrends support our profitable growth ambitions

StoraEnso

## Traditional wood products markets

Stora Enso's market share (%)

### Traditional wood products

- Largest supplier of sawn wood in Europe
- Global reach with ~40% sales in overseas markets

## Stora Enso's global CLT market share 2023

# 13%

### Building Solutions

- The world's largest CLT producer
- One of the leaders in LVL in the European market

# Leading provider of wood-based building solutions

StoraEnso

- Close to strategic European markets
- Industrial infrastructure
- Local supply of raw material

## Annual capacity

Sawing	5.1 million m <sup>3</sup>
Further processing	2.2 million m <sup>3</sup>
CLT	410,000 m <sup>3</sup> *
LVL	85,000 m <sup>3</sup>
Pellets	460,000 t

\*CLT site (120,000 m<sup>3</sup>) in Ždírec, Czech Republic, in the ramp-up phase

- Traditional sawing
- CLT production
- LVL production

# Traditional wood products: we have improved our profitability and competitiveness for profitable growth

1. **Demand growth:** megatrend for wooden buildings continues
2. **Wood supply:** competitive sourcing in Nordics and Central Europe
3. **Efficiency:** largest operational process efficiency programme completed with main improvements in safety, productivity and raw material efficiency
4. **Integration benefits:** fiber supply for building solutions and packaging materials

**Opportunity for profitable growth:**  
capacity increase

# Building Solutions: accelerated profitable growth with solutions across the building lifecycle

Architect

Construction company

Building owner

# Prefabrication example: Fully-finished building elements to reduce manual, costly workload on the construction site

———— **Commodity, off-the-self** ————— **Bespoke, delivered just in time** —————>

# Wood Products ~2030 ambition

StoraEnso

**>40% sales  
increase\***

**+75% operational  
EBITDA over the cycle\***

**40% share of  
Building Solutions**

**~25 wind turbine  
towers delivered**

**50% scope 3 carbon  
footprint reduction**

**Efficient asset  
footprint**

\*Compared to 2016-2021. Measured as standard deviation over a cycle

StoraEnso

# Forest

# Forest division in brief

StoraEnso

- The division creates value with sustainable forest management, competitive wood supply to Stora Enso's production units, and innovation
- Our forests are the foundation for Stora Enso's renewable offerings
- The division includes our Swedish forest assets and the 41% share of Tornator as well as wood supply operations in Finland, Sweden and the Baltics
- Stora Enso is one of the biggest private forest owners in the world

# We create value through our forest assets

- ~36% self-sufficiency of wood supply from own forest assets and long-term agreements
- Secure tactical flexibility through wood sourcing
- Operate the largest wood sourcing organisation in the Baltic Sea region
- Increased harvesting to secure wood flows to Stora Enso sites
- Fiber\* ~30% of total Group costs

\*Includes wood, PfR, OCC and pulp

# ~36% self-sufficiency of wood supply from own forest assets and long-term agreements

## Wood self-sufficiency by country in 2023

Stora Enso controls approximately 36% of its wood raw material consumption globally. Harvesting in own forests and sourcing from long-term agreements amounted to 10.2 million m<sup>3</sup> in 2023. Wood deliveries to Stora Enso sites were 28.1 million m<sup>3</sup> in 2023.

# The forest presents an endless source of value

StoraEnso

- Supports a strong balance sheet with increasing value
- Lowers financial and strategic risks
- Foundation for development of sustainable forest management
- Supports our growth strategy through cost efficient wood flows and resource efficiency
- Advances our innovation and R&D work
- Potential for additional revenue streams in renewable energy production (solar and wind)

**Up to  
+15%** increased harvesting  
potential in Sweden

# We hold our forest assets close to our production to ensure flexibility and a low carbon footprint

StoraEnso

- **Enables further control** of our wood supply
- **Establishes a resilience** to changes in the market environment
- **Secures availability** and lowers wood costs for the Group
- **Provides tactical flexibility** in wood supply
- **Minimises** the logistical **carbon footprint** and **lowers transportation cost**

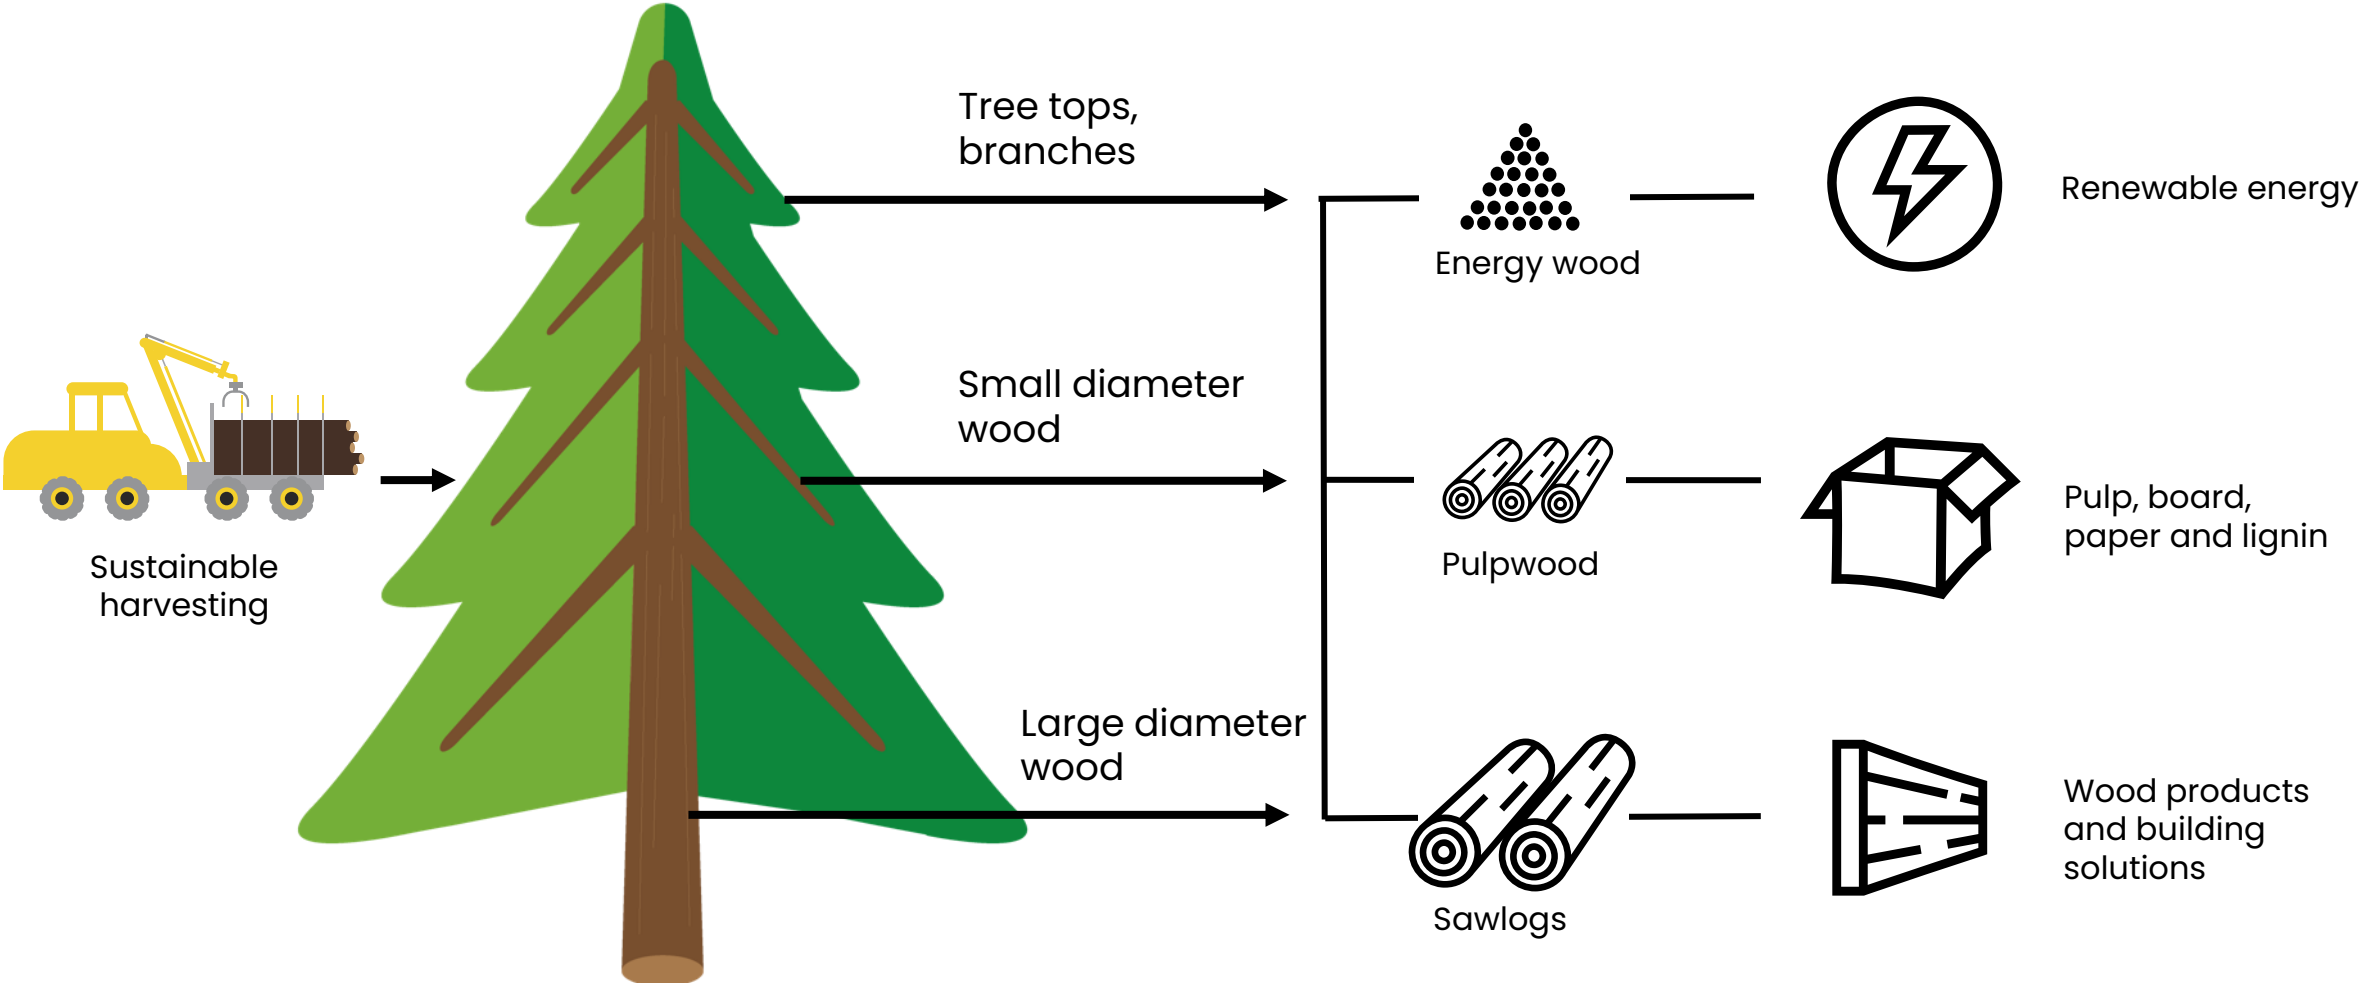

# We use all parts of each harvested tree ensuring optimal use

StoraEnso

# Only growing forests remove CO<sub>2</sub>

StoraEnso

## Carbon sequestration capacity of growing stock

# We are committed to step up our work to safeguard biodiversity

**99%**

of the lands we own or manage covered by forest certification schemes

**Science-based**

indicators for landscapes, habitats and species

**Net-positive**

impact on biodiversity by 2050

# Precision forestry enables a more and efficient forest management

StoraEnso

# Active land management provides new revenue streams

## Active landowner

- Selected land sales
- Land swaps to optimise the land holdings

## Wind power

- Land leasing
- Expansion potential

## Other revenue streams

- Hunting licences and fishing rights
- Gravel sales

## Future potential

- Carbon credits
- Solar power

StoraEnso

# Unlocking wind power potential with strategic initiatives

StoraEnso

Our ambition is to **develop and significantly increase** our involvement in **wind energy** on our land from the current 1 TWh

The **total potential for wind power production** on Stora Enso's forest land in Sweden is estimated at **75 TWh** of which **~30%** can be realised long-term

Our aim is to reach **5–10 TWh** of wind power production, ramping up **from 2030 onwards**

Our recent agreement with OX2 on a **joint wind power development project** of circa 1,000 MW is a step towards our ambition

StoraEnso

# Group's financial performance, dividend policy, ownership and top management

# Sales and operational EBIT margin development

StoraEnso

# Cash flow over the cycles

StoraEnso

- Cash flow from operations decreased to €954 (€1,873) million in 2023
- Cash flow after investing activities was €-40 (1,162) million in 2023

# Stora Enso's energy self-sufficiency 73% FY/2024

Group energy self-sufficiency excl. JVs (2024e)

Group wood self-sufficiency by country 2023

# We drive shareholder value through a focused and disciplined capital allocation

StoraEnso

Strong  
cash flow  
generation

Allocating capital for  
sustainable profitable growth

Returning capital  
to shareholders

**Organic growth**

CAPEX at or below  
depreciation over the  
cycle

**M&A**

Selective M&A to support  
growth in both Packaging  
and Wood Products

**Dividends**

To distribute 50% of EPS  
excluding fair valuation  
over the cycle

# Committed growth investments proceeding as planned

Returning to average capex range of €600 – 800 million after 2024

StoraEnso

## Average capex split for 2014–2024

Depending on investment decisions

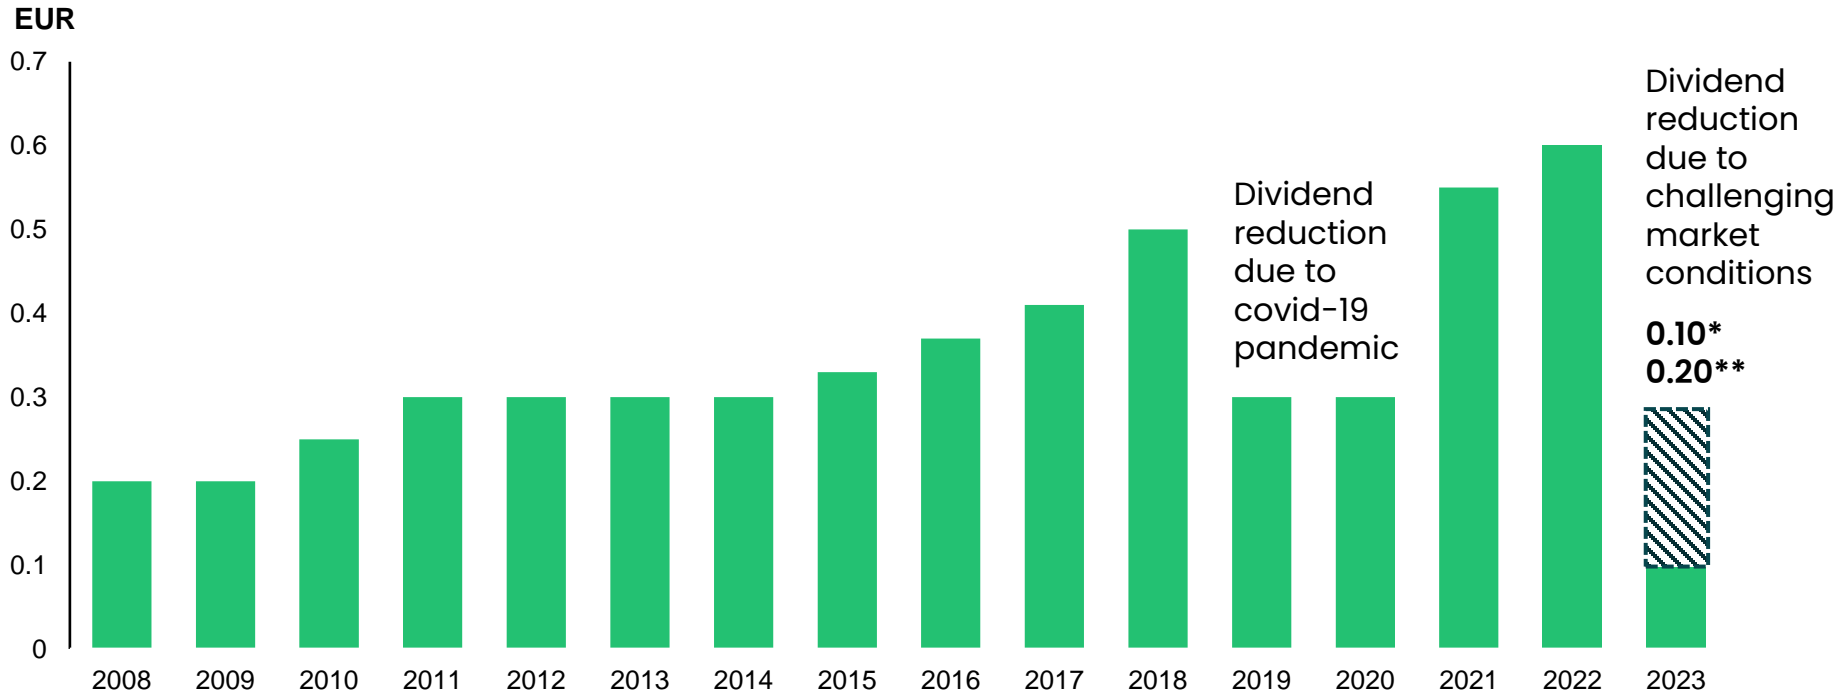

- Strategic capex
- Maintenance and development
- Biological assets

# Dividend development

StoraEnso

## Dividend

**Target to distribute:  
50% of EPS  
excluding fair  
valuation over  
the cycle**

\*Dividend of 0.10 EUR/share was paid in April 2024

\*\*Proposal that the Board is authorised, at its discretion, to pay an additional 0.20 EUR/share until 31 December 2024

# Cost structure in 2023

# Maintaining a strong liquidity position

StoraEnso

- Liquidity at the end of March 2024:
  - €2.1 billion cash and cash equivalents
  - €700 million committed revolving credit facility fully undrawn
  - €100 million committed credit facility fully undrawn
  - Additionally, €1.1 billion statutory pension premium loans available
- No financial covenants
- Investment grades:
  - Fitch: BBB- (stable)
  - Moody's: Baa3 (stable) / P-3

\*Entirely owned by the Finnish State. \*\*As confirmed to Stora Enso.

List has been compiled by the company, based upon shareholder information from Euroclear Finland Oy and Euroclear Sweden AB share registers and a database managed by Citibank, N.A. (as the company's ADR agent bank). This information includes only direct registered holdings, thus certain holdings (which may be substantial) of ordinary shares and ADRs held in nominee or brokerage accounts can not be included. The list is therefore incomplete.

# Sponsored ADR Programme

Stora Enso has a sponsored Level I ADR programme in the US.  
The ADRs and Ordinary Shares trade on the OTCQX® Best Market.
